ESTHER YAMUZA

## SYNOPSIS

EROTICA UNIVERSALIS is a journey around the erotic planet, interested in carnal pleasures since time immemorial. On this trip we will depart from China, which produced taoísmo, we will visit India where Shikta and Shiva connected their bodies in impossible shapes while the Rome of Ovidio will surprise us with misconceptions still present in our days .... to arrive at the contemporaneity of Sex in New York, tantra yoga, tupper sex ... or Fifty Shades of Grey. An erratic and erotic journey with no other pretensions than the enjoyment of the narrated stories, individually, in pairs, or in groups.

Whatever method chosen by you to take part, welcome to EROTICA UNIVERSALIS!
